

## Biennial report

### Study Groups

---

**Title of the study group:** EULAR non-pharmacological treatment of autoimmune connective tissue diseases

**Study Group Leader's name:** Carina Boström

**Date of annual report submission:** 15 March 2020

#### Summary of last year's activities

- An application for a task force for EULAR recommendations/points to consider for the non-pharmacological management of connective tissue diseases with focus on systemic lupus erythematosus and systemic sclerosis was submitted to EULAR 24 January 2020 by the study group leader.

- The application was approved 10 March 2020 with a slightly changed project title according to the following: EULAR recommendations/points to consider for the non-pharmacological management of connective tissue diseases. Work on forming the final group that is going to work on this has begun.

- A new module about Systemic sclerosis within the EULAR on-line school for health professionals has been written by members in the study group. It was ready in the end of 2019.

- A LinkedIn group has been created and members have been invited from February 2020. Important messages will be delivered at the EULAR conferences and via e-mail.
